SUMMARY

As a web developer, I possess a strong understanding of creating and maintaining engaging, responsive, and user-friendly websites and web applications. My expertise spans HTML, CSS, and JavaScript, allowing me to build dynamic and interactive web experiences. I'm adept at utilizing frameworks and libraries such as React, Angular, or Vue.js to develop scalable and efficient web applications.

EXPERIENCE

Web Developer **June 2015 - Present**

As a Web Developer, I have demonstrated expertise in creating and maintaining dynamic, responsive, and user-friendly websites and web applications. My technical skills encompass proficiency in HTML, CSS, and JavaScript, allowing me to build engaging and interactive web experiences.

I have extensive experience with front-end frameworks and libraries, such as React, Angular, and Vue.js, which enables me to develop scalable and efficient web applications. I am also knowledgeable in server-side technologies, including Node.js, PHP, and Python, as well as database management using SQL and NoSQL solutions.

Throughout my career, I have collaborated with cross-functional teams, including designers and project managers, to deliver high-quality, user-centric web solutions that meet business requirements. I have a strong understanding of responsive design principles, ensuring that the websites I build are optimized for various devices and screen sizes.

I stay up-to-date with the latest web development trends, frameworks, and best practices, and I am committed to continuously improving my skills to deliver cutting-edge web experiences. My attention to detail, problem-solving abilities, and collaborative approach have been invaluable in delivering successful web projects.

EDUCATION

HiLCoE School of Computer Science

July, 2018

Bachelors Degree in Computer Science
